Normalized test MSE (MSE / variance of the test labels), ridge chosen on validation data · paper-accurate settings, 5 seeds
Current-point readout (F1 as run)
Exponential fading (F2)
Volterra (F3)
QuaRK (paper settings)
QuaRK, exact expectations
QuaRK, random-Pauli shadows
Matérn kernel, raw window
Linear ridge, raw window
Echo state network, default
Echo state network, tuned
